

# Ecological Information

## C 580 Buz<sup>®</sup> Leather

Ready-to-use leather care product

**Ingredients:** 5-15% hydrocarbons, <5% nonionic surfactants, 5-15% soap, contains preservation agents and perfumes. Other ingredients: care components.

<b>Ecolabel</b>	<b>Percentage of readily biodegradable components according to OECD 301 or REGULATION on detergents</b>	<b>Theoretical oxygen demand</b>	<b>Phosphorus content (calculated as elemental phosphorus)</b>
	46.1 %	720 mg / g	-

If used as intended, the product does not get into wastewater, but remains on the cleaned surface. Small amounts released over time by wear are either subject to biological degradation processes or behave ecologically neutral because of their non-toxicity.
