

Ecological Information

G 502 Buz[®] Point

Ready-to-use stain remover

Ingredients: >30% hydrocarbons.

Ecolabel	Percentage of readily biodegradable components according to OECD 301 or REGULATION on detergents	Theoretical oxygen demand	Phosphorus content (calculated as elemental phosphorus)
	0.0 %	1890 mg / g	-

If used as intended, the product does not get into waste water, but evaporates and enters the environment in a diffuse manner via the atmosphere. Here all components are subject to a more or less fast photochemical decomposition by sunlight.
