

BUDENAT® AZID PLUS D 587

Acid disinfectant cleaner

Fields of application

- For all sanitary-, wet-room- and swimming pool areas, as well as for all areas where the combination of disinfection and limescale removal is required
- Can be used on all acid-resistant materials, floors and surfaces, such as urinals, toilets, washbasins and tiles

Material compatibility

- Only suitable for acid-resistant materials
- Not suitable for aluminium, coated surfaces, acrylic glass and acid-sensitive enamel

Product advantages/properties

- Effective disinfection and limescale removal in a single process
- Extremely effective disinfectant without long waiting times
- VAH- and RK-listed
- Easily dissolves limescale, urine scale, dirt and soap residues

Efficacy

- Bacteria incl. MRSA and yeasts

DISINFECTANT CLEANER

BUDENAT® AZID PLUS D 587

Acid disinfectant cleaner

Application and dosage

First, remove coarse dirt from the surface. Pre-wet surfaces with cold water before application. Then we recommend using suitable wet-wiping techniques. Allow to dry or rinse off after the exposure time.

Selected dosages and exposure times for surface disinfection:

Bacteria and fungi

Target organisms	Concentration	Exposure time
Bacteria & yeasts (VAH list / EN 13697)	5,0 % 1,0 %	15 min. (L) 240 min. (L)

(H) Tested under high organic load - values apply also to moderately soiled surfaces

(L) Tested under low organic load - values apply to pre-cleaned surfaces only

Note

Use biocides safely. Always read the label and product information before use. Surfaces that come into contact with food or the skin must be rinsed with drinking water after disinfection. Absorb product which has been accidentally spilled with a liquid-binding material (sand, diatomaceous earth, universal binding agent). Do not let product enter the sewer system or bodies of water undiluted. Once packaging is completely empty, rinse out twice with water and recycle. Shelf life after opening: 9 months. A storage temperature of 5 to 25 °C is recommended.

100g contain: 2,50g didecyltrimethylammonium chloride, 4,00g alkyldimethylbenzylammonium chloride, 0,96g hydroxypropionic acid. BAUA reg. no. N-57169.
