

Bucasan® + Intense

P 922

Ecological sanitary cleaner
based on methanesulfonic acid

EU Ecolabel:
DE/020/449

Area of application

- For the entire wet room and sanitary area
- All acid-resistant materials, e.g. sanitary porcelain, chrome and stainless steel surfaces, wall and floor tiles, sinks and toilets

Product benefits/properties

- Eco-certified
- Powerful cleaning effect
- Easily removes lime, urine scale and other mineral impurities
- Regular use prevents lime deposits
- Dries quickly and streak-free
- Concentrate – lower consumption compared to usual products
- Also suitable for stripping

Application and dosage

- Always use cold water. Pre-wet surfaces with cold water before application. Rinse with clean water.
- Consumption: 0,01 - 0,24 ml / per m²
- The correct dosage saves costs and protects the environment.
- Dosage according to EU ecolabel criteria:
Light soiling: 20 ml / 10 l
Normal soiling: 50 ml / 10 l
Dosing aids are available on request.

pur

20 - 50 ml / 10 l
water

200 ml / 10 l
water

200 - 1.000 ml / 10 l
water

- Apply fresh application solutions and consume them within 24 hours at the latest.

Remarks / Important information

- Do not use on acid-sensitive surfaces or materials such as marble, aluminium etc.
- Do not mix pure with other cleaning agent concentrates or cleaning products.
- Changes or variations in colour of the product do not impact on the quality.
- **Safety:** Test material compatibility on a hidden area before application. For further information, please refer to the MSDS (Material Safety Data Sheet).
- **Storage:** Always keep containers closed. Store at room temperature in the original container.
- **Environmental:** Non-contaminated and emptied packages may be recycled. Original bottle can be easily refilled from the practical canister, thus saving packaging waste.

EU CLP - Regulation (EC) No 1272/2008

- Danger Methanesulfonic acid.
- H290 May be corrosive to metals.
- H314 Causes severe skin burns and eye damage.

The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.
